

Logikcull | El Paso County
June 13, 2022

To Whom It May Concern: Logikcull is a sole source product.

Logikcull is developed, licensed, and provided directly and exclusively by Logik Systems Inc. alone. There are no agents or dealers authorized to represent this product outside of Logik Systems.

Logikcull's core pricing model is based upon matter amount and data uploads to the solution, unlike most software leveraging a data storage or licensing approach. Logikcull provides unlimited users, unlimited access to premium feature functionality, and dedicated guidance with around-the-clock immediate support access. Please see the attached exhibit for El Paso County price quote.

No other company offers a product that provides Logikcull's type of automation, processing functionality, accessibility, and user collaboration. Logikcull is designed to uniquely support investigations and discovery through automation and simplicity. Self-service drag-and-drop upload and processing capabilities, audio / video transcription with Voice Touch®, smart filter engine, integrative technologies, react viewer, production processes, and Logikcull's general support structure are all unique.

Logikcull is commonly selected by state government agencies, cities, and counties for its exclusive ability to create efficiencies related investigation management.

If we can provide additional information, please do not hesitate to contact our Vice President of Finance or me. My contact information is 202-281-9307 or Michael.Kandel@logikcull.com. Our Vice President of Finance's contact information is Andrew.Dopp@Logikcull.com or 843-209-8301.

Thank you for your interest in Logikcull.

Sincerely,
Michael Kandel
Senior Account Executive
