- o Design-Build services, if required.

At Keystone, our team approach to Job Order Contracting (JOC) is to assist our customers with their needs, to complete successful projects that are within budget, and, more importantly, on schedule. This is achieved by working closely with our customers, reviewing their statement of work, and performing on-site. Moreover, Keystone will propose changes that can benefit the client by cutting costs and expediting the project's completion when needed. As a JOC contractor, our team gets involved in producing a product that meets the client's needs, as well as acting as a professional advisor. Our Collaboration is the foundation of our success in the JOC market. The benefits of JOC projects include:

•Project planning •Value Engineering •Time savings / Cost savings •Monitoring and coordinating daily construction activities.

We help our clients understand and achieve the optimal balance between function, quality, cost, and schedule that meets their objectives.
